Key to the Deseret Alphabet

The Deseret Alphabet is a phonetic alphabet for the writing of English introduced under the auspices of The Church of Jesus Christ of Latter-day Saints (Mormon) during the 19th century. Despite heavy support from Brigham Young, the Alphabet never caught on and hasn't had any significant use since 1869 and the publication of a Deseret Alphabet-edition of the Book of Mormon.

The Alphabet consists of 38 letters. Each letter has an upper- and lower-case form which look identical except for size. The letters, their names, and sounds are as follows:

9	LONG I (i as in machine)	а	DEE (d as in Deseret)
3	LONG E (e as in grey)	\mathbf{c}	CHEE (ch as in cheese)
8	LONG A (a as in art)	9	JEE (j as in John)
0	LONG AH (au as in aught)	ω	KAY (k as in kitten)
0	LONG O (o as in tone)	Ø	GAY (g as in good)
Φ	LONG OO (oo as in moo)	ρ	EF (f as in France)
†	SHORT I (i as in it)	В	VEE (v as in voice)
٦	SHORT E (e as in desert)	L	ETH (unvoiced th as in think)
1	SHORT A (a as in cat)	¥	THEE (voiced th as in they)
4	SHORT AH (o as in cot)	8	ES (s as in said)
٢	SHORT O (o as in woman)	6	ZEE (z as in zebra)
٩	SHORT OO (oo as in book)	a	ESH (sh as in shoot)
J	AY (the sound of the pronoun I)	\mathbf{s}	ZHEE (as in measure)
8	OW (ow as in cow)	ቀ	ER (r as in ride)
W	WU (w as in wonder)	l	EL (l as in letter)
\forall	YEE (y as in you)	3	EM (m as in Macintosh)
Ϋ́	H (h as in hurrah)	ዛ	EN (n as in nice)
٦	PEE (p as in put)	И	ENG (ng as in sing)
В	BEE (b as in bee)		. 5
า	TEE (t as in teach)		

My experience has been that the "official" name and pronunciation guides published by the LDS Church a hundred years ago were rather confusing; I've taken the liberty of respelling the letter names to make them more intelligible.

The alphabet wasn't in general use long enough to produce a stable set of spellings; and, being a phonetic alphabet, it tended to be spelled in a rather ideosyncratic fashion anyway. The one spelling convention of which one should be aware is that when a word has the same sound as a letter's name, that letter can be used by itself for the whole word. Thus, the word "be" is written \mathfrak{A} , and not \mathfrak{A} .

More information on the Deseret Alphabet can be found on the World Wide Web at the following URL's:
